Dani Money
Parks Planner
Peace Region

Dear Dani:

RE: Northern Rocky Mountains Park – Public Advisory Group (PAG)

On behalf of the Advisory Board, I would like to bring to your attention a long standing commitment made by your Ministry regarding the above referenced public advisory group

Known as the PAG, it was established as a multi party group to provide historical and background details, along with LRMP direction, to be considered in the development of the Management Plan for Northern Rocky Mountain Park, a significant park in the Muskwa-Kechika Management Area.

As referenced below in an email to one of our Advisory Board Working Groups, a previous Regional Manager responsible for the development of this park management plan re-confirmed the Ministry's commitment back in 2006.

The Muskwa-Kechika Advisory Board is requesting for you to honor this commitment. Though some members of the PAG may not be available for various reasons, we trust you will work to contact as many as possible to hold a meeting and allow them the opportunity to review the final draft plan as committed by the Ministry.

Sincerely

Stephanie Killam
Chair,
Muskwa-Kechika Advisory Board

MUSKWA-KECHIKA
MANAGEMENT AREA

Subject: Northern Rockies

Thanks for a good meeting today. After further thought on the matter of closure to this plan, Scott and I have agreed to a one time only meeting of the PEG to review the final draft of the plan. That will take place after all of the MK Parks committee has provided their input and our staff have had a chance to review the comments, make changes, etc. Scott will send out the draft before the meeting to those PEG members who are still around and a meeting will be arranged to finalize this draft. If all works well, the meeting will be held this spring.

With respect to the issue of firearms in parks during the off hunting season, this issue is being looked at by our policy team in Victoria. As I explained to you today, we will not be putting anything in the park plans as the Parks Act and regulations does prohibit the carrying of firearms in Parks outside a hunting season without a permit. If the MK Board wishes to send a recommendation on changing the act or regulation, they should do so via myself.

If you need any further clarification on these matters, please give me a call.
